

~~SECRET~~  
57-1900

JUN 1 1957

MEMORANDUM FOR: Deputy Director (Support)

SUBJECT: Supplemental Air Conditioning for FBID in Matsonic Building.

REFERENCE: (a) Memorandum to Chief, REAC from Acting Chief, FBID dated 26 April 1957, same subject  
(b) Memorandum to D/L from Asst. General Counsel dated 18 June 1957, subject "Installation of Air Conditioning Equipment for FBID teletype Rooms in MATSONIC Building"

1. This memorandum contains a recommendation submitted for DD/S approval. Such recommendation is contained in paragraph 5.
2. Reference (a) outlines in complete detail the requirement for supplemental air conditioning after the central system in the Matsonic Building is turned off at the end of the normal work day.
3. The area in question, namely Rooms 434 and 436, which houses FBID Teletype Operations and Wire Service have been surveyed by PMS. It was determined that six 3/4 H.P. casement type window units would adequately compensate for the heat load in these two rooms. The combined cost of procurement and installation of the six units is estimated at \$2,100.
4. Reference (b) indicates that the General Counsel has no objection to the purchase of supplemental air conditioning provided a finding is made indicating that FBID operations cannot be interrupted by heat dismissals.
5. It is recommended that approval be given this Office to procure and install the six units. Funds are available for this purpose.
